Oberursel, A Business Location

"Oberursel - Life. Quality. Future."

Oberursel's privileged location on the southern slopes of the Taunus mountains promises and delivers an exceptional quality of life. Bordering on Frankfurt, the leading economic centre, and the Rhine-Main-Area, Oberursel is easily accessible by train (S and U trains) or by car via the Autobahn.

Our town is a great place to do business and home to numerous high-performance companies and a large number of highly-skilled jobs.
A lot of globally operating companies are headquartered here. Our population's purchasing power is among the highest in Germany, and the local demographic development is quite positive.

Our town can be characterised as open-minded and tolerant. For us, integration is not just an empty word - after all, people from more than 120 different countries call Oberursel home.

In Oberursel, it is very easy to harmonise body and soul. In the immediate vicinity of the Heilklima-Park Hochtaunus (Hochtaunus healthy climate park), recreation and sports are wide and varied.

Parents of preschool and school children can choose from a great variety of day care services for their children: day care nurseries for infants and toddlers, before and after school care centres, kindergartens and day care centres. Home to 23 schools, Oberursel plays a key role in schooling in the Hochtaunus district. Also, the "Frankfurt International School" is situated in the northern part of Oberursel and provides its students with an excellent international education.
